## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-8 are rejected under 35 U.S.C. 102(b) as being anticipated by Mudge et al. (US 5,540,987) or Leighton et al. (US 5,415,926). For reasons cited in the previous action.

### ***Response to Arguments***

3. Applicant's arguments filed 6/6/03 have been fully considered but they are not persuasive.

Mudge et al. and Leighton et al. each teach tert-amyl hydroperoxide, a t-alkyl HP with at least 5 carbons, among a group of only two others mentioned. This constitutes a teaching in a small group and, as it clearly puts the invention in the possession of the public, still supports anticipation.

Further, even if the 5 carbons t-alkyl HP were not preferred over the other two, it is well settled that anticipatory teachings are not limited to any particular embodiment/example. In re Boe, 148 USPQ 507 (CCPA 1966). Disclosed examples and preferred embodiments do not constitute a teaching away from a broader

disclosure. In re Susi, 440 F.2d 442, 169 USPQ 423 (CCPA 1971). The redox system comprising a 5 carbons t-alkyl hydroperoxide is still taught by the prior art. This is clear, even if it is not exemplified.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
